STANDARD OPERATING PROCEDURE

Controlled Use - Air Freshener

DOCUMENT CONTROL

Field	Controlled value	Field	Controlled value
SOP number	ACX-1226-VAR-SOP	Revision	1.0
Effective date	14 SEP 2026	Next review	14 SEP 2026

1. PURPOSE AND SCOPE

This procedure defines the controlled site use of Air Freshener (ACX-1226-VAR) for approved odour control / ambient care tasks. It covers product verification, compatibility, safety controls and close-out. Chemical dosing and handling remain governed by the current product label, SDS and site-approved procedure.

Applies to	Healthcare / Hospitality / Education / Industrial - approved personnel / areas only
Exclusions	Direct spray onto food contact surfaces, open food, electronic equipment, and polished wood finishes

2. RESPONSIBILITIES

Role	Responsibility
Authorised operator	Verify the correct product and current controlled documents; follow the approved site procedure and required safety controls.
Supervisor / QA / EHS	Maintain current label / SDS availability, confirm site controls, and define any required records or verification.

3. APPROVED PRODUCT AND EQUIPMENT

Product	Air Freshener / ACX-1226-VAR
GHS pictogram	
Approved surfaces / equipment	Occupied rooms, corridors, washrooms, common areas, food-handling environments (indirect air use)
PPE	None required under normal use conditions
Restrictions / incompatibilities	Direct spray onto food contact surfaces, open food, electronic equipment, and polished wood finishes

4. PROCEDURE

Step	Action	Acceptance / finish
1	Confirm product identity, SKU, label / SDS revision and task authorisation.	Correct product and current controlled documents confirmed.
2	Confirm compatible area / equipment, required PPE and site controls before the task.	Pre-use checks complete; incompatible use excluded.
3	Perform the task only under the current product label and site- approved operating procedure.	No unapproved chemical mixing, dosing or process deviation.
4	Complete site-defined finish / rinse / dry, container close-out and any required record.	Area / equipment left in the site- approved condition; product secured.

5. SAFETY CONTROLS

Control	Requirement
PPE	None required under normal use conditions
Critical warnings	Follow the current product label and SDS. Avoid eye contact and use only on documented compatible surfaces / areas. Known restriction: Direct spray onto food contact surfaces, open food, electronic equipment, and polished wood finishes
Emergency reference	Current SDS / label and site emergency procedure
