## TECHNICAL DATA SHEET

Carpet & Upholstery Shampoo Concentrate - Low-Foam

### 1. PRODUCT IDENTIFICATION

|                    |                                                                                     |
|--------------------|-------------------------------------------------------------------------------------|
| Product name       | Carpet & Upholstery Shampoo Concentrate - Low-Foam                                  |
| Brand              | Alle's ClinX                                                                        |
| Product code / SKU | ACX-CARPETSH-VAR                                                                    |
| Product category   | Fabric / textile care                                                               |
| Product form       | Liquid concentrate                                                                  |
| Intended market    | Hospitality / Education / Labs                                                      |
| GHS pictogram      |  |

### 2. PRODUCT DESCRIPTION

Carpet & Upholstery Shampoo Concentrate - Low-Foam is a professional fabric / textile care product based on Low-foam surfactant blend + soil-release polymer, with a stated pH of 7.0–8.5 (mild alkaline). This sheet summarises supported identity, compatibility, safety, storage and packaging information.

### 3. KEY FEATURES AND BENEFITS

| Feature                                          | User / operational benefit                                            |
|--------------------------------------------------|-----------------------------------------------------------------------|
| Low-foam surfactant blend + soil-release polymer | Defines the formulation / active system used to identify the product. |
| pH: 7.0–8.5 (mild alkaline)                      | Supports compatibility and handling decisions.                        |
| Pack: 5 Litres / Bulk on request                 | Supports procurement and document matching.                           |

### 4. APPLICATIONS

|                          |                                                                                   |
|--------------------------|-----------------------------------------------------------------------------------|
| Recommended environments | Hospitality / Education / Labs                                                    |
| Recommended tasks        | Fabric / textile care                                                             |
| Use on                   | Only on areas / surfaces approved by the current product label and site procedure |
| Do not use on            | Follow current product label / SDS for restrictions                               |

5. TECHNICAL SPECIFICATIONS

| Property           | Specification                                    |
|--------------------|--------------------------------------------------|
| Active / chemistry | Low-foam surfactant blend + soil-release polymer |
| pH                 | 7.0–8.5 (mild alkaline)                          |
| Product form       | Liquid concentrate                               |
| Pack size          | 5 Litres / Bulk on request                       |

6. SAFETY AND HANDLING SUMMARY

|                                           |                                                                                                                     |
|-------------------------------------------|---------------------------------------------------------------------------------------------------------------------|
| PPE                                       | Gloves recommended for concentrate handling                                                                         |
| Critical restrictions / incompatibilities | Follow the current product label and SDS. Avoid eye contact and use only on documented compatible surfaces / areas. |
| First aid / spill reference               | Refer to the current product SDS, label and site emergency procedure.                                               |

7. STORAGE AND SHELF LIFE

|                        |                                                                                                                                         |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Storage conditions     | Keep in the original sealed container, away from direct sunlight and incompatible materials; follow current label / SDS storage limits. |
| Storage temperature    | Follow current label / SDS                                                                                                              |
| Shelf life - unopened  | 24 months from date of manufacture, unopened                                                                                            |
| Container requirements | Original, correctly labelled, tightly closed container unless the approved pack states otherwise.                                       |
