

Washroom Inspection Checklist

A rapid operational inspection for cleanliness, supplies, defects and user readiness.

FACILITY / SITE

WASHROOM / LOCATION

DATE

INSPECTION TIME

Operational check

☐ Toilet / urinal surfaces visibly clean and free from scale or residue	OK / Action
☐ Washbasins and taps clean; no standing water or heavy deposits	OK / Action
☐ Mirrors, partitions and doors free from visible marks	OK / Action
☐ Floor clean, dry and free from slip hazards	OK / Action
☐ Drains clear; no abnormal odour or backflow observed	OK / Action
☐ Soap / handwash available and dispenser functioning	OK / Action
☐ Tissue / hand-drying supplies available	OK / Action
☐ Bins not overflowing; liners fitted and surrounding area clean	OK / Action
☐ High-touch points completed: handles, flush controls, taps, dispensers	OK / Action
☐ Fixtures intact; leaks, blockages or damage reported	OK / Action
☐ Cleaning tools and chemicals removed after completion	OK / Action
☐ Overall odour, appearance and readiness acceptable for use	OK / Action

Control note. Record defects separately when maintenance - rather than cleaning - is required.
