

Cleaning Cart Preparation Checklist

Prepare a consistent, safe housekeeping cart before entering operational areas.

FACILITY / SITE

CART / TEAM

DATE

PREPARED BY

Operational check

☐ Cart clean, dry and free from unrelated items	Ready / Action
☐ Required products present in labelled, closed containers	Ready / Action
☐ Working / diluted containers prepared and identified correctly	Ready / Action
☐ PPE stocked for planned tasks	Ready / Action
☐ Clean cloths / mop heads available and segregated from used items	Ready / Action
☐ Waste bags / liners available in required sizes	Ready / Action
☐ Warning / wet-floor signage available and serviceable	Ready / Action
☐ Hand hygiene / cleaning supplies available as required	Ready / Action
☐ Basic spill-response materials available where the cart standard includes them	Ready / Action
☐ Tools secured so they cannot fall or contaminate clean supplies	Ready / Action
☐ Used / soiled items compartment empty at start of shift	Ready / Action
☐ Route / task list reviewed before leaving the utility area	Ready / Action

Control note. Do not overload the cart. Separation of clean supplies, chemicals and used materials is more important than carrying every possible item.
