

Pre-Audit Hygiene Readiness Checklist

A final readiness check before an internal, customer, certification or regulatory hygiene review.

FACILITY / SITE

AUDIT / REVIEW TYPE

PLANNED DATE

READINESS OWNER

Operational check

☐ Current cleaning schedules available for sampled areas	Ready / Gap
☐ SOPs / work instructions match current practice	Ready / Gap
☐ Daily / periodic cleaning records complete and legible	Ready / Gap
☐ Active chemical inventory and SDS register up to date	Ready / Gap
☐ Dilution / dosing records available where required	Ready / Gap
☐ Chemical storage and working-container labels acceptable	Ready / Gap
☐ Training and competency evidence current for sampled staff	Ready / Gap
☐ PPE available and condition acceptable	Ready / Gap
☐ Equipment maintenance / fault records current	Ready / Gap
☐ Incidents / non-conformances traceable to closure	Ready / Gap
☐ CAPA evidence available and overdue actions explained	Ready / Gap
☐ Facility walk-through shows records reflect actual conditions	Ready / Gap

Control note. A readiness check should expose gaps early. Do not “complete” missing records retrospectively; document the gap and corrective action.
