

Hospital Housekeeping Checklist

A general hospital housekeeping checklist to be adapted to the facility infection-prevention programme and area risk.

HOSPITAL / FACILITY

WARD / AREA

DATE

STAFF / TEAM

Operational check

☐ Area risk / precaution status checked before starting	Done / N.A.
☐ Required PPE and dedicated / designated tools available	Done / N.A.
☐ Waste and linen handled through the correct routes	Done / N.A.
☐ Bedside and frequently touched environmental surfaces completed	Done / N.A.
☐ Patient furniture / non-critical contact surfaces cleaned as assigned	Done / N.A.
☐ Washroom / sanitary surfaces completed where within scope	Done / N.A.
☐ Spills or visible contamination managed under facility procedure	Done / N.A.
☐ Floor cleaned using the approved method and equipment	Done / N.A.
☐ Clean and used cloths / mop heads controlled to limit cross-contamination	Done / N.A.
☐ Product contact / rinse instructions followed	Done / N.A.
☐ Equipment reprocessed before moving to the next area as required	Done / N.A.
☐ Completion / exception recorded and area released appropriately	Done / N.A.

Control note. Always follow the hospital IPC policy, isolation precautions and product-specific instructions; this generic checklist does not override clinical protocols.
