Operational check

☐ Soiled and clean linen routes / zones physically separated	OK / Action
☐ Soiled linen contained before transport; no unnecessary shaking	OK / Action
☐ Required PPE available for soiled-linen handling	OK / Action
☐ Sorting practices minimise exposure and environmental contamination	OK / Action
☐ Wash programme / cycle selected according to facility textile policy	OK / Action
☐ Laundry chemicals dosed through the approved system / instruction	OK / Action
☐ Machines, carts and contact surfaces kept clean	OK / Action
☐ Drying completed before clean linen is packed or stored	OK / Action
☐ Clean linen protected from dust, moisture and soiled items	OK / Action
☐ Rejected / stained / damaged linen segregated for decision	OK / Action
☐ Records completed for cycle / batch where required	OK / Action
☐ Spills, sharps or unusual contamination escalated immediately	OK / Action

Control note. Healthcare and food-service laundry may require additional validated process controls; use the applicable sector procedure.
