

Hand Sanitizer Gel - 70% Alcohol

70% v/v Isopropyl/Ethyl Alcohol with Moisturising Gel Base + Fragrance-Free Formula Instant Hand Sanitisation for classrooms, patient rooms, lobbies & high-footfall common areas

Ready to use - no dilution

DOSE / DILUTION

Follow the current label and measure accurately.

5.5-7.0

PH / CHEMISTRY

Reference value from current product data.

5 Litres (refill pack)

PACK

Procurement / refill format.

DANGER - GHS02

H225 - Highly flammable liquid and vapour. Keep away from heat, sparks, open flames, and hot surfaces. No smoking.

01 What this guide helps you control

- Correct dose, dilution and application sequence for the intended task.
- Where the product fits, material limits and compatibility checks before use.
- PPE, stop-work conditions, storage and incident-response essentials.
- Direct access to the current SDS, technical documents and procurement resources.

Application scope and controls

Where the product creates value, what PPE is needed, and what must be confirmed before use.

01 Operational value

01

70% v/v alcohol content

Provides the stated active concentration for the intended professional application.

02

No-rinse instant format

Requires no dilution before routine application; follow the current label and site procedure.

03

Moisturising gel base

Clinging gel helps maintain product contact with the target area during the stated application.

04

Fragrance-free

Provides a controlled fragrance profile suitable for routine institutional environments.

02 PPE and task controls

Normal-use PPE

Normal-use PPE None required for normal use

03 Pre-use verification

01

Confirm current label/SDS and site procedure before use.

02

Confirm application

Use only for the intended task, surface, equipment or hygiene purpose.

03

Remove ignition sources

No flames, sparks, hot surfaces or smoking in the use zone.

04

Prepare PPE

Use the PPE stated in the SDS/product literature for concentrate handling and task risk.

05

Prepare rinse / cleanup

Have water, wipes or approved cleanup materials ready before starting.

Controlled application sequence

Ready to use - no dilution

Prepare

01

Read the current label/SDS, confirm compatibility, isolate the task area and prepare PPE.

Dispense

02

2-3 ml (one pump) into the palm.

Apply

03

Rub thoroughly over all surfaces of both hands, including between fingers and nail beds, until dry - approximately 20-30 seconds.

Rinse / finish

04

No - dries without rinsing

Verify

05

Confirm the required result, correct finish and safe condition before closing the task.

Close out

06

Reseal and return the product to storage, restore the work area and report any abnormal result or deviation.

Keep the chemistry controlled

More product, longer dwell time or mixing with another cleaner is not automatically safer or more effective. Stay within the current product instructions.

Compatibility and application limits

Confirm the material, surface or equipment before application; avoid preventable damage and rework.

01 Compatibility

Compatible after check

- Hands / skin as directed
- Approved dispenser systems

Verify before use

- Confirm against current product literature and site requirements.

02 Operational value

01 % v/v alcohol content

Provides the stated active concentration for the intended professional application.

02 No-rinse instant format

Requires no dilution before routine application; follow the current label and site procedure.

03 Moisturising gel base

Clinging gel helps maintain product contact with the target area during the stated application.

04 Fragrance-free

Provides a controlled fragrance profile suitable for routine institutional environments.

Incident response and escalation

Stop work early, protect people first, and use the current SDS and site emergency procedure.

Stop work

Any ignition source, spark, flame or hot work in the use/storage zone. Unexpected reaction, heat, fumes, odour or visible surface attack. Damaged or unlabelled container, uncertain product identity or uncertain compatibility. Splash/exposure event or uncontrolled spill.

01 First-aid summary

Eyes

Flush eyes with clean water for at least 15 minutes, holding eyelids open. Remove contact lenses if easy to do. Continue rinsing and seek medical attention if irritation persists.

Skin

Remove contaminated clothing. Rinse affected skin thoroughly with water. Wash with soap where appropriate. Seek medical attention if irritation, redness or pain persists.

Inhalation

Move the affected person to fresh air and keep at rest. If breathing is difficult or symptoms persist, seek medical attention. Follow the current SDS and site emergency procedure.

Ingestion

Do not induce vomiting. Rinse mouth with water. Do not give anything by mouth to an unconscious person. Seek medical attention promptly and provide the current SDS or product label.

02 Storage

Store in the original labelled container, tightly closed and upright, in a cool, dry, well-ventilated area. Keep away from incompatible materials and follow the current SDS Section 7 for product-specific storage conditions. Do not mix with other chemicals unless explicitly permitted by the current product instructions.
